SUMMARY

Hi, I'm an Front-End Web Developer. My skills in this area include: jQuery, HTML, CSS, Wordpress, Bootstrap.

When I started studying Programming, I was so afraid I wouldn't like it. Surprisingly, I loved the idea of becoming a Front-End Developer. That is what drives my Programming "life". Despite the moments when your code doesn't work and you want to throw away your laptop, I enjoy coding all the way I am programming whatever I am programming.
